I have been asked...

The 2012 Tier II showed ammonium nitrate (lots)... the 2011 Tier II did not show ammonium nitrate...

Have ya'll looked at previous years to see if they reported ammonium nitrate before, and if so, were the amounts consistent with the 2012 form...

Thanks...

If you have already put the 2009, 2010 or others in .pdf that you can send to me, you would be my heroes...

Actually, ya'll already are...
